DETAILED ACTION

Allowable Subject Matter

1. Applicant is advised that the Notice of Allowability mailed on June 11, 2002 and the Supplemental Notice of Allowability mailed on September 20, 2002 are vacated.

2. This application is objected to under 37 CFR 1.172(a) as the assignee has not established its ownership interest in the patent for which reissue is being requested. An assignee must establish its ownership interest in order to support the consent to a reissue application required by 37 CFR 1.172(a). The assignee's ownership interest is established by:

(a) filing in the reissue application evidence of a chain of title from the original owner to the assignee, or

(b) specifying in the record of the reissue application where such evidence is recorded in the Office (e.g., reel and frame number, etc.).

The submission with respect to (a) and (b) to establish ownership must be signed by a party authorized to act on behalf of the assignee. See MPEP § 1410.01.

An appropriate paper satisfying the requirements of 37 CFR 3.73 must be submitted in reply to this Office action.

3. The reissue oath/declaration filed with this application is defective because the error, which is relied upon to support, the reissue application is not an error upon which a reissue can be based. See 37 CFR 1.175(a)(1) and MPEP § 1414.

Art Unit: 2838

Although the statement of error in the declaration filed 8/28/02 is directed to a specific limitation in original claim 10, it does not indicate how the limitation it renders the patent wholly or partly invalid or inoperative. Therefore, the statement cannot be accepted to satisfy the requirement of rule 37 CFR 1.175(a) (1). See MPEP 1414, item II.

Additionally, as this is a broadening reissue application, the declaration filed 8/28/02 cannot be accepted because it was not signed by the inventors pursuant to 35 USC 251 third paragraph, and 37 CFR 1.172.

4. Claims 1-22, 24-32, and 34-65 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the declaration is set forth in the discussion above in this Office action.

5. The amendments filed 11/29/01 and 1/30/02 proposes amendments to claims 22, 24-32, and 34-65 that do not comply with 37 CFR 1.173(b), which sets forth the manner of making amendments in reissue applications. A supplemental paper correctly amending the reissue application is required.

Specifically, the amendments filed don't incorporate the marking required by 37 CFR 1.173(d). As such, a paper correctly presenting a) amended original patent claim 10 with appropriate bracketing and underlining and b) new amended reissue claims 22, 24-32, and 34-65 underlined entirely. See 37 CFR 1.173 and MPEP 1453. Additionally, the proposed drawing correction filed January 30, 2002, is informal because the amended drawing figures 2a, 2b, 2c and 2d are not designated as

Art Unit: 2838

AMENDED. See CFR 1.173(c) and MPEP 1453. Therefore, a paper correctly presenting amended figures 2a through 2d must be submitted.
